This is the strange, other-worldly, and completely catchy music you're looking for. As those who've been to *Star Wars*: Galaxy's Edge may know, R-3X the DJ spins these tunes from his booth in Oga's Cantina, much to the delight of galactic travelers enjoying the destination's exotic beverage concoctions. The music is a mashup of various galatic musical styles, textures, and rhythms, and is filled with *Star Wars* touches like distorted alien voices and droid beeps and boops.
